10/16/2017	Ronald Union	Investigation in Progress
Upon arrival to this location, I performed an exterior property inspection, from the public right of way. I observed a vacant structure with extensive construction work already performed. I observed all the interior walls and ceiling area had been opened up (all the sheet rock had been removed), also there were exposed electrical wires through out the structure. I researched the permit history of this location, through the Amada system. I did not observed any active construction permits for this location. I contacted the two construction workers, and informed them they would have to stop working, due to there not being any active permits. I asked them to contact their supervisor, so I could speak to him. I spoke to Steve Johnson (Property Owner / 512-845-5026), who stated he and his partner are in the permit process with the City of Austin. I informed Mr. Johnson all construction work must stop, until all required permits are obtained and active. Mr. Johnson stated he understood, he also admitted to removing the sheetrock, due to numerous raccoons getting in-between the walls, and causing major damage to the structure.

11/06/2019	Khalid Marshall	Follow-up Inspection
On 21091031 I stopped at this location and found that the property appears to be vacant. There was a storage container on the property that has graffiti on it. There are building materials being stored on the property.		
I checked for any permits for this property and found that there are no permits for this location.		
While at the front door I noticed through the glass in the front door that the inside of the structure was taken down to the studs. There is a Expired plan review PR 2016 051375 that shows that there were plans for a remodel which appears to have been started but has now been abandoned		
11/06/2019	Khalid Marshall	Send CV Notice
A notice of violation will be sent for the graffiti on the property, the work performed without a permit, and the building materials being stored on the premises.

On 2-14-2020 I went to this location to measure the storage container to see if the storage container that's being stored in the driveway is a setback violation. Upon my arrival I was able to measure the front of the property to the driveway expansion which measure at 23 feet. I will need to do more research on the set back requirements. As of today the storage container and the trailer still hasn't been removed. I will contact the owner Mr. Johnson to find out why the storage container hasn't been removed. Digital photos were taken.

02/25/2020	Belinda Thompson	Contact Performed
On 2-25-2020 I spoke with the owner Mr. Johnson by phone in regards to the storage container that's still being stored in the driveway. Mr. Johnson informed me due to the rain in the last few weeks has made it difficult to get the storage container removed. Mr. Johnson stated he had to hire a towing company to move the storage container instead of the prior moving company he hired due to the size and weight of the storage container. Mr. Johnson assured me that he will have the storage container removed on 2-26-2020. I made Mr. Johnson aware that the storage container is currently a violation due to the front yard setback and can not be stored on the driveway. Mr. Johnson also asked if he could have a dumpster in the driveway when he begins the construction work on his property. I told Mr. Johnson he would not be in violation as long as his permits remain active for the work that's occurring. I'm scheduled to conduct another follow up inspection on Thursday 2-27-2020. I also told Mr. Johnson if the container isn't removed from the property then I will have to send him a notice of violation.		
02/25/2020	Belinda Thompson	Information Update
On 2-25-2020 I left a voicemail for the owner Mr. Johnson informing that I conducted a follow up inspection to check to see if the storage container had been removed, which he stated on 1-3-2020 he would have a moving company remove the container. As of 2-14-2020 the storage container is still being stored on the driveway. I will have to go back and re-measure the setback then send out a notice of violation.

02/28/2020	Belinda Thompson	Follow-up Inspection
On 2-28-2020 I met with the owner Mr. Johnson at this location to see if progress was being made on removing the storage container. Upon my arrival I met with Mr. Johnson on the property and observed Mr. Johnson had removed the trailer from the driveway and attached it to the back of his truck. Progress is being made on the removal of the storage container. Mr. Johnson is waiting on the tow truck to show up to the property to remove the container. Mr. Johnson stated the container will be removed today. Mr. Johnson also informed me he will begin construction on the property next week and will be bringing a dumpster onto to the property and will try to push the dumpster as far as he can so it won't violate the front yard setback. I gave Mr. Johnson my business card along with a copy of the front yard setback ordinance for his reference. I will go back to the property later this afternoon or on Monday 3-2-2020 to conduct a final inspection for the removal of the storage container.		
02/28/2020	Belinda Thompson	Contact Performed
On 2-27-2020 I spoke with the owner Mr. Johnson by phone to discuss what his plan of action was on removing the storage container from the driveway. Mr. Johnson informed me that the tow truck did show up to the property on 2-26-2020 to remove the container but wasn't able to due to not having the correct chain to attach to the hitch. Mr. Johnson assured me that the container would for sure be removed on Friday 2-28-2020. I'm schedule to meet with Mr. Johnson at the property on 2-28-2020.

Duplicate case number 17-135212. Inspector Marco Ramos is working this case		
05/28/2019	Lamont Howard	Inspection Performed
On 05/28/2019 I conducted an inspection at 7609 Creekbluff Drive. Upon arrival I exited my vehicle and approached the residence. I observed that there's an Upper Construction sign in the front yard. I continued on to the front door of the residence. The grass and weeds are not yet beyond 12 inches. Once I arrived at the front door I peered through one of the side windows. I could see where the interior of the house was under construction at one point and time. Per inspector Marco Ramos notes this case is heading to legal and has an active CV 17- 135212. I'm closing this case and referring it to CV17-13212
